NATHAN LIMONO

Redmond, WA | (425) 273-8918 | natelimono@gmail.com | Portfolio | LinkedIn

PROFESSIONAL SUMMARY

UX Designer and front-end developer experienced in designing end-to-end user flows and interfaces, from wireframes and Figma prototypes to development-ready specs. Skilled in translating user needs into intuitive visual hierarchies, building accessible, responsive interfaces, iterating from feedback, and collaborating with product and engineering teams. B.S. in Informatics (UX Design). Seeking a UX Designer or Front-End Developer role where strong design, problem solving, and a user-first mindset make an impact.

CORE COMPETENCIES

- User Experience Design | Wireframes, Prototypes & Dev-Ready Specs | Design Systems
- Usability Testing & Feedback-Driven Iteration | Accessibility (WCAG 2.1 AA) | Cross-Functional Collaboration
- Front-End Development: HTML, CSS, JavaScript | Responsive Design | Stakeholder Presentations
- Tools: Figma, Adobe Illustrator | AI-Assisted Workflows (Copilot, GPT, Claude) | Analytics: Tableau, Power BI

WORK HISTORY

User Experience / User Interface Designer — MAQ Software, Redmond, WA **May 2024 – June 2026**

- Led end-to-end design of user flows and visual hierarchies for prototypes and dashboards, applying design system patterns and WCAG 2.1 AA accessibility standards across a high volume of deliverables
- Produced detailed design specs and documentation for front-end engineering and QA handoff, and ran verification reviews to catch inconsistencies before delivery.
- Partnered with engineering, product, and content teams to solve complex interface problems and translate requirements into scalable, user-centered design solutions.
- Presented design decisions and rationale to stakeholders and led training sessions to support knowledge transfer across teams.

Information Technology Team Lead — Washington Gaming Association, Seattle, WA ***Mar 2026 – Present***

- Conducted user research with attendees and competitors to inform the design of the event website's flows and information hierarchy, improving usability and the overall experience.
- Managed end-to-end live-streaming setup and logistics for multi-title tournaments, ensuring smooth broadcasts.
- Maintained relationships with gaming-industry sponsors (Pepsi, Sony, and others) and authored event reports with statistical insights into event success.
- Planned and ran competitive tournaments across multiple game titles, managing schedules and day-of operations.

Head Teaching Assistant — University of Washington, Seattle, WA ***Sep 2019 – Jun 2023***

- Reviewed and verified work completed by fellow teaching assistants to ensure accuracy and consistency prior to distribution to students, providing feedback to support quality and consistency.
- Coordinated with faculty and fellow teaching assistants to structure content and communicate updates clearly across the team.
- Designed instructional materials based on student and faculty feedback to improve clarity and engagement.

EDUCATION & CERTIFICATIONS

University of Washington, Seattle, WA
Bachelor of Science in Informatics (Data Management and UX Design concentration) — 2019–2023 | GPA: 3.7

Bellevue Community College, Bellevue WA
Japanese I & II

Microsoft Learn
MS-4018: Draft, Analyze, and Present with Microsoft 365 Copilot | AI-3025: Work Smarter with AI
